

LOGISTICS FOR MINERALS

Rhenus acts as a neutral link between manufacturers, dealers and customers of minerals in the ceramic, glass, refractory, building materials, paper and paint industries. Using its extensive network, Rhenus provides not just transport by ship, inland vessels, rail and lorry (just in time), including in containers, but also transshipment, interim storage and customs clearance for both import and export.

Services

- National and international transport by inland waterways, coastal shipping and sea as well as rail and lorry (just in time)
- Transshipment at sea and inland ports (mainly using own systems) between all modes of transport
- Outdoor and indoor storage, video surveillance
- Quality and quantity control
- Customs clearing for import and export
- Sea freight
- Seagoing vessel clearance
- Bagging, screening, drying and ensilaging
- Stripping and stuffing of containers
- Securing cargo
- Expediting by sea, inland waterways, rail, lorry
- Transport guarantee

Facilities

- IT connection to client
- Individual IT services
