

# OUR SERVICES

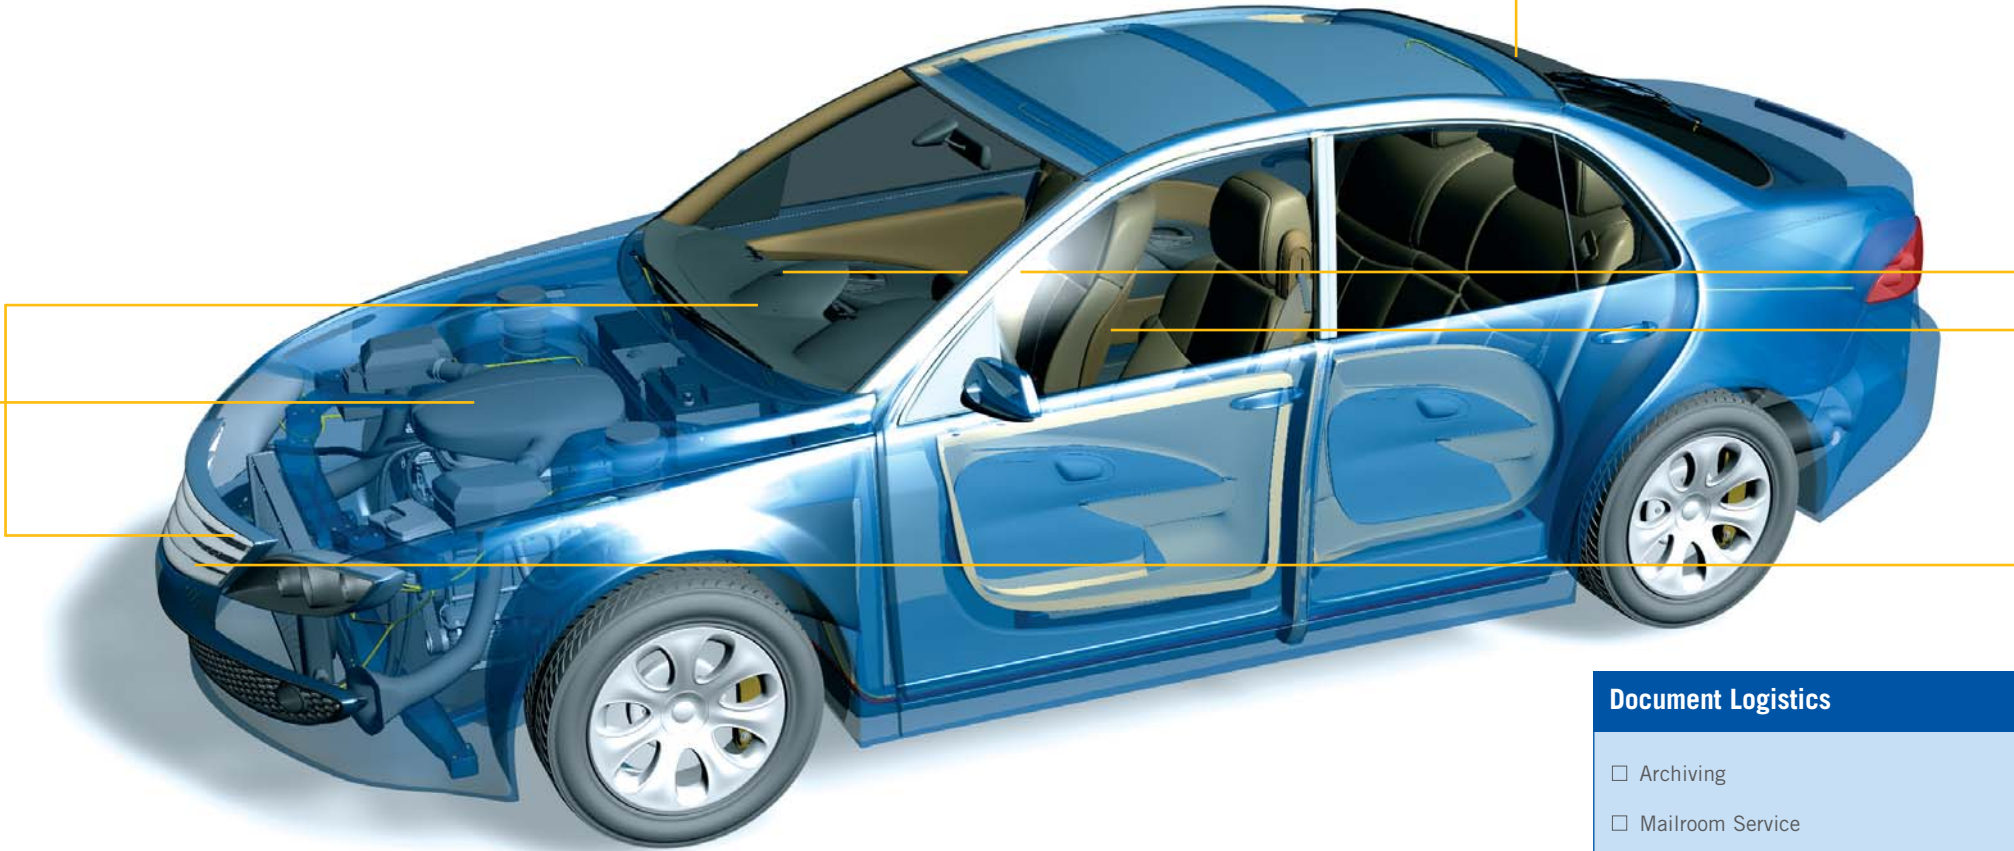

For automotive manufacturers and suppliers

Rhenus is the specialist for many logistics tasks that must be tackled in the production of automobiles. VDA 6.2:2004, ISO/TS 16949:2002 or ISO 14001:2004 certification is an expression of our uncompromising quality orientation. We employ globally-integrated IT systems that support industry standards such as Odette, VDA and EDIFACT. Client interfaces can be individually customised.
